Customer Service

The NASS Mission ~

*"The NASS mission is to provide
timely, accurate and useful statistics
in service to United States agriculture."*

How to Access North Dakota Reports & Data Products

A wide variety of agricultural statistics are available from NASS's North Dakota Field Office. For your convenience, there are several ways to obtain NASS reports, data products and services.

- **Mail Subscription** - Contact our office to place an order.
- **E-mail Subscription** (free) - To receive news releases via e-mail as soon as they become available, you can subscribe on our web page or send an e-mail message to **nass-nd@nass.usda.gov**. Tell us which type of reports you would like to receive: crop weather; crops; livestock; potatoes & vegetables; prices & economics; and/or all reports.
- **Internet**
http://www.nass.usda.gov/Statistics_by_State/North_Dakota/
North Dakota web site.
<http://www.nass.usda.gov> - National web site
Keep up-to-date on agricultural statistics. Includes publications, news releases, 2002 Census of Agriculture and general information on North Dakota and United States agriculture as soon as available.
- **Quick Stats: On-Line Database** - **<http://www.nass.usda.gov>**
Historical state and United States downloadable data. The database allows custom extracts based on commodity, year, state and other selection criteria and produces an output file compatible for updating databases and spreadsheets.

Products &

North Dakota Data Products

North Dakota Agricultural Statistics: Issued annually in mid-June. Comprehensive book of state/county agricultural statistics. Available by mail subscription (\$10.00) and updated each June on the Internet.

North Dakota Crop, Livestock & Weather: Released weekly April through November; monthly December to March. Reports crop progress and conditions, weather and farm activities. Available by mail subscription (\$12.00/year), e-mail subscription (free) and kept current on the Internet.

North Dakota Farm Reporter: Issued biweekly (24/year). Includes up-to-date state and national agricultural data. Available by mail subscription (\$10.00/year) and on the Internet.

News Releases: Printed copies available to news media only. Available free by e-mail subscription to the public and kept current on the Internet.

2002 Census of Agriculture: Comprehensive state and national data about production agriculture. Available by mail and on the Internet.

Other publications: *North Dakota County Rents & Values; North Dakota's Rank in Agriculture; North Dakota Wheat and Barley Varieties; North Dakota Custom Rates; and North Dakota at a Glance.* Printed copies are free upon request. Also available on the Internet.

Electronic files: Available upon request.

CD's: Available upon request (\$15 per CD).

For ordering information, contact our office.

GIS-Based Products

The following products are available for use in Geographic Information Systems or as maps. Cost will be based upon the request.

North Dakota Land Use Stratification

Data and map products available showing North Dakota Land use. Cropland strata distinguished by amount of land cultivated.

Normalized Difference Vegetative Images

Regional, biweekly AVHRR-NDVI Satellite map products depicting actual and comparative vegetative differences from period-to-period, year-to-year.

North Dakota Land Use Classification

Experimental computer classification of crop acreage and land use utilizing Landsat 5 and 7 satellite imagery. Digitized data set and map products. The only full-state cropland data layer in existence includes 2003-2004 classifications.

Services

2002 Census of Agriculture Data Products

Every five years, the census of agriculture snaps a picture of America's farm and ranch industry at the county, state, and national levels. As the prime source of consistent, comparable, detailed data about production agriculture, census data provide a basis for determining both the present state of agriculture and trends over time. All listed products are available on the Internet at http://www.nass.usda.gov/Census_of_Agriculture. CD-ROM's and/or printed reports are available upon request. For more information on how to order printed reports or CD-ROMs, contact NASS's North Dakota Field Office.

Volume 1, Geographic Area Series

United States, State and County Data - The United States Summary provides national data and selected data for each state. Separate state reports display statistics for the entire state and every county.

Volume 2, Subject Series

ZIP Code and Congressional District Tabulations - Presents agricultural statistics by five-digit postal ZIP Code and Congressional district in two separate files, for all farms in all 50 states.

Agricultural Atlas of the United States - Features a series of maps highlighting agricultural activities and characteristics.

Ranking of States and Counties - Ranks the leading states and counties for selected items from the 2002 Census of Agriculture.

2002 Census of Agriculture History - Explains the history of the agriculture census, farm definition, data collection and processing, data dissemination, research, and the census of agriculture in outlying areas.

Volume 3, Special Studies

2003 Farm and Ranch Irrigation Survey - Displays results from a sample survey of farms and ranch operators who reported using irrigation in the 2002 census.

2005 Census of Aquaculture - Provides data on size of operation, methodology, sales by category, losses, irrigation, and other topics. Available on the Internet and as a printed report December 2006.

USDA

Periodicals

Call the order desk toll free at 1-800-999-6779

USDA periodicals bring you the latest data, statistics and research on commodities, food, the farm and rural America.

NASS' statistical reports estimate production, stocks, inventories, disposition, utilization and prices of agricultural inputs and commodities, and other items such as labor, farm workers and chemical usage. To access NASS' periodicals online, visit: <http://www.nass.usda.gov/pubs/pubs.htm/>

ERS' Situation and Outlook reports provide both current intelligence and historical data on national food and agricultural developments, and forecast the effects of changing conditions and policies on domestic and international agriculture. ERS' research periodicals track a wide variety of trends and conditions in the U.S. farm and rural sectors. To access ERS periodicals online, visit <http://www.ers.usda.gov/publications/>

Where to Find North Dakota Historic County Estimates

The table below indicates the publications in which specific historic estimates can be found. County estimates began in 1919 for most major crops and in 1925 for livestock, although there are exceptions to both as indicated in the table. Separate estimates of corn for grain began in 1957. Estimates of commercial grain storage capacity were not made in 1959, nor in 1961-64, and were discontinued after 1986.

Beginning in 1968 for hogs and 1970 for chickens, the reference date was changed from January 1 to December 1.

There is no charge for publications prior to number 54, however, availability of these earlier publications is limited. Many of these historic estimates are available via our online database (Quick Stats) at:

www.nass.usda.gov/Statistics_by_State/North_Dakota/
